

Course 05: Content Creation

Comprehensive Learning Guide & Practical Prompting Playbook

MODULE OVERVIEW

Accelerate multi-channel content production. Learn how to generate engaging blog posts, social media scripts, educational video outlines, visual assets prompts, and full content repurposing pipelines.

KEY LEARNING TOPICS

- Content Engine Workflows & Repurposing Frameworks
- Hook Writing & Visual Composition Scripting
- SEO-Optimized Article Architecture
- Crafting Effective Prompts for Image & Video AI Tools

PROMPTING STRATEGY & ARCHITECTURE

Combine hook-focused copywriting techniques with platform-specific formatting rules (hashtags, character limits, call-to-action structures).

ROLE

You are a Senior Content Strategist and Video Producer.

TASK

Transform the core concept of 'Building a MERN Stack Web App' into a multi-channel content engine package.

REQUIRED DELIVERABLES

1. YouTube Video Script Outline (Hook, Intro, 3 Main Sections, CTA)
2. LinkedIn Post (Professional insights, breakdown format, relevant hashtags)
3. 3 Engaging Tweets/X Posts (High hook density, concise key tips)
4. AI Image Generation Prompt for thumbnail design

CONSTRAINTS

- Target audience: Early-career software engineers.
- Tone: Educational, encouraging, and highly practical.

BEST PRACTICES & PRACTICAL TIPS

- Always request a visual/audio description alongside spoken voiceover text for video scripts.
- Ask for 5-10 hook variations before writing the full piece of content.
- Create modular prompts that can easily transform long-form content into short snippets.
